13. Rao,S.N. & Sahajpal P.(2013) Counselling & Guidance New Delhi: Tata Mc Graw Hill

## **Paper-712**

**Marks-100 (80+20)**

### **Research Methodology-I**

#### **Unit-I**

Introduction and scope, Research problem: Identification, Selection, Formulation of research objectives, Research design: Components. Types and Importance, Research ethics, Institutional ethics committee Plagiarism-Pitfall

#### **Unit-II**

Types of technical documents; Full length research paper, Short/Brief communications ,Letters to editor , Book chapter, Review,Conference report, Project proposal, Components of a full length research paper; Title/Topic statement , Abstract/Key words, Aims and objectives, Hypothesis building,

Rationale of the paper, Work plan, Materials and methodology, Results and discussion, Key issues and arguments, Acknowledgement, Conflict of interest statement, bibliography, Technical Resumes & Cover Letters, Components of a research proposal; Project summary, key words, Origin of the proposal, Major objectives, Methodology, Instrument facility available in the PI's department, Overview project in the context of current status, Bibliography.

### **Unit-III**

How to cite and how to do referring, Literature search technique, using SCOPUS, Google Scholar, PUBMED, Web of Science, Indian Citation Index, and RG, Styles of referencing, APA, MLA, Oxford, Harvard, Chicago, Annotated bibliography, Tools for citing and referencing Grammarly, Endonate etc.

### **Unit-IV**

Tables, Figures, and pictures using Excel, Power Point, Slide preparation, Preparation of posters, Electronic submission of manuscripts, Communication skills, oral and poster.

## **Paper-713**

**Marks- 100 (80+20)**

## **Research Methodology-II**

### **Unit-I**

Patents

Patent law, process of patenting a research finding

Intellectual property (IP), Intellectual Property Right (IPR), Copy right laws Cyber laws

COPE

### **Unit-II**

Quantitative Data Analyses

Types of data, Data collection – Methods and Tools

Hypothesis testing

Normal and Binomial distribution and their property Test of significance: Student t-test, F-test, Chi-square test

Correlation and Regression

Anova-One –way and Two –way, Multiple-range test

### **Unit-III**

***Computer Fundamental:***

Introduction to MS-Office software: MS-Word (Track change)

MS-Excel

MS-Power point

MS-Access

Features for Statistical data analysis using computers and software, Microsoft Excel Data Analysis ToolPak, SPSS

#### **Unit-IV**

##### ***Advanced tools and techniques:***

Naturalistic observation, case study, correlational method, experimentation, survey use of statistics as a tool for collection and evaluation of psychological data (Psychometric, Factor analysis, Experimental design, Multivariate Behavioral Research

Use of advanced imaging techniques: (CAT, MRI, PET and SQUID)

Use of electrical /electronic stimulus and response recording techniques: -(i) EBS, Electrical brain stimulation, (ii) Electrophysiological techniques, (iii) Single-unit recording technique etc.

Psychopharmacological techniques: Drugs like, (Narcotic and psychedelic drugs)

Computer assisted/aided design of research

Yoga, meditation, relaxation techniques in health and well being and therapeutic procedure.

#### **RECOMMENDED BOOKS**

1. Robert A. Barron Psychology

2. King, B.M. & Minimum, E.W. (2007) Statistical Reasoning in Behavioural Sciences (5<sup>th</sup> edition)
