Invited Lecture 09/02/24

Topic :- The Interface between Data and Policy,
 Speaker :- Prof. Udaya Shankar Mishra,
 Date :- 9th Feb., 2024 (3.30 PM)
 Venue :- LG - I

Abstract :-
 The data ecosystem is ever expanding and
 gives us more information. However, the problem
 is about the use of data. The data should be
 reported responsibly. In the present day world,
 hinges in the misrepresentation of data. Thus it is
 rightly said "more of availability of information
 less of expertise."
 Another important aspect of data handling is
 the correct conceptualization of indicators. There
 are need to distinguish between aggregate and
 average.
 The next important problem is eligible content
 of indicators. There is a problem when the
 data comes from multiple sources. Multiplicity of
 data comparison difficult, hence it difficult to
 analyse and can lead to misinterpretation of
 policy.
 The lecture perfectly summarizes the importance of
 data and policy.

PROGRESS REPORT ON THE FUNCTIONING OF THE CIVIL SERVICES COACHING CENTRE AT G.M. UNIVERSITY, SAMBALPUR

The Coaching Centre for Civil Services Examinations was established in G.M. University, Sambalpur vide letter No.4328/HE, dated 16.02.2017 of Department of Higher Education, Government of Odisha, Bhubaneswar. The centre was provided with a non-recurring grant of Rs.1000000.00 and recurring grant of Rs.600000.00 from Government to start the coaching classes during the session 2017-18. After advertisement, an entrance test was conducted on 09.04.2017 and the first batch comprising of 60 students were enrolled on 17.04.2017. Subsequently classes on various aspects of the UPSC syllabi were conducted from 27.04.2017 to 13.06.2017 and 182 hours devoted to teaching activities including tests and VSTs.

In the beginning of the new academic session, the second entrance test was conducted on 29.10.2017 to select candidates for the second preliminary batch. The selected candidates were admitted on 04.11.2017 and teaching activities started on 06.11.2017. Interested students of the first batch were allowed, on request, to attend classes with the second batch candidates so that they can sharpen their knowledge. A total of 160 hours of teaching-learning classes and examinations were organized by various devoted subject experts and experienced administrators. In order to prepare the candidates in line with the demands of the civil services examinations, regular tests are being conducted invariably on every third day to assess their receptivity and seriousness. Besides, group discussions and interactive sessions are also being organized regularly to boost their confidence.

A third entrance test was conducted on 24.08.2018 to select candidates for admission into third preliminary batch. The regular classes for the third batch were organized from 05.09.2018 to 18.01.2019 and a total of 112 hours of teaching and coaching classes were provided to the selected candidates. The students were provided with reprints of study materials with library facilities beyond of class hours. Feedbacks were collected from the students regarding the coaching facilities, library facilities and availability of study materials.

We are hopeful of a better show by our students this time around. Needless to say that the continuation of such a centre will not only encourage university / college students to prepare for the coveted civil services but will also help the poor, needy and backward category students to access coaching at a lower cost with convenience.
